Junior Web Developer & Freelance Web Designer

A motivated self-starter looking to expand my existing coding skills base following the completion of my web development diploma. I love writing beautiful code & learning new ways to work more efficiently. I am a committed hard worker that works to see every project that I take on reach its full potential in every facet.

TECHNICAL EXPERIENCE

Languages:	HTML5, CSS3, SASS, Javascript, PHP, SQL
Libraries:	jQuery, Laravel, Bootstrap
Databases:	MySQL
Software:	Sublime, Sketch, Adobe Photoshop
CMS's:	Squarespace, Wordpress

WEB DEVELOPMENT WORK EXPERIENCE   WWW.ADVICEUNLIMITED.NZ

Advice Unlimited: *Web Development & Design* - Aug 2016 - Present

- Working as part of a small team to provide technological solutions for small to medium sized businesses
- Using Content Management Systems such as Wordpress & Squarespace to design quick and affordable online platforms in collaboration with a graphic designer and copywriter

Lifeline Aotearoa: *Web Development & Design* - Mar 2017 - Present
- Part of a two person student team redesigning and rebuilding the crisis helpline charity's website www.lifeline.org.nz to update their online presence and encourage increased donations
- The new site is being constructed through Wordpress to create a long-term, easily updatable web solution. This site will also be fully integrated with third party payment processor Flo2cash
- This project is on track and due to reach completion in mid-May 2017

ADDITIONAL RELEVANT WORK EXPERIENCE

Kiwibank Ltd: *Phone, Online and Migrant Customer Service roles* - May 2011- April 2015
Prior to studying at Yoobee and my pre-house purchase 12 month overseas working holiday, my final role at Kiwibank as an Online and Migrant Banking Representative involved the redesign of the following webpage content and all attached forms while looking after this important channel almost independently; https://www.kiwibank.co.nz/personal-banking/international-services/moving-to-nz/open-acct-overseas/

EDUCATION   ONLINE PORTFOLIO | JENNY.ADAMS.YOOBEE.NET.NZ

Yoobee School of Design - Wellington: Diploma of Web Development (graduating May 2017)
Victoria University of Wellington: Bachelor of Arts - Majoring in International Relations & Media Studies

STUDENT PROJECTS

Rent Rave
A currently fictional designated online space for renters to share helpful information about rental properties in the form of online reviews, thereby acting as a "Tripadvisor" for renters in NZ. I came up with this idea as a renter a few years ago which partly inspired my interest to study web development. I am considering properly launching this website idea in the future if existing Dunedin-based competitors ratemyflat.org.nz don't expand nationwide . It uses PHP, HTML, CSS, SASS and an auto-address completion Google API

Wellington Free Walking Tour
A website to advertise a currently fictional tips-based walking tour in Wellington City. This idea was inspired by some fantastic walking tours I joined while on a 12 month working holiday in Europe between Apr 2015 - Apr 2016. This is a fully responsive website using HTML, CSS, SASS, Javascript & a Google Maps API with navigation options for devices with GPS capabilities

Fly to the Limit
A fictional private scenic airline in Queenstown. An early project using just HTML and CSS for skill development.
